

Wedding Video Package

Your Wedding Video can be in Standard Definition on DVD or High Definition on Blu-Ray. For DVD's: ***\$875** for approximately 6 hours on location time (starting 2 hours before ceremony), ****\$100** for each additional hour. Contact us for a quote on Blu-Ray. This wedding video package includes 2 videographers during the ceremony and 1 during the reception. [Book us](#) today before someone else does!!!

Wedding Video Details:

1. Videographer(s) will arrive about 2 hours before your ceremony to prepare and cover pre-ceremony action with 1 video camera.
2. Ceremony coverage with 3 video cameras and 2 videographers (almost any number of cameras may be used and manned depending on your particular agreement).
3. Reception coverage with at least 1 video camera manned. Immediately after the ceremony the videographer may go to the reception and will work to get feedback/comments, etc. from your guest. We work to cover all the highlights of your reception as well (announcements, first dance, cake cutting, bouquet toss, etc...).

After Your Big Day

After the event everything is put onto a computer for editing. The post production phase usually takes 18 or more hours spread out over a 1 or 2 week period. On average we have your DVD ready 2 weeks after the event. However, we like to take our time and not rush creativity so we it may occasionally take longer.

You're wedding video will have title pages, wedding theme transitions, and effects. Transitions from one scene/camera to another are generally subtle fades to not distract from the actual event. Other effects may include animations and split screens to show action that may be occurring simultaneously (e.g. a singer on one side of the screen and the Bride and Groom on the other).

Sometimes the reception is very dark and it may be difficult to get good/clear video without extra light. When this is the case extra lightening may be added to ensure proper coverage of your event. This is in the form of a video camera light that's *usually* 10 to 40 watts.

Add Your Own Spice

You may add your own spice to your movie at the intro of the video or reception or on the menu page. For example, send us your favorite song for the DVD menu, a picture you want in the menu or movie, or if there's something you want to say in a title page tell us and we'll include it! If we have a wedding program we may include the wedding party in rolling credits at the end.

Wedding Slide Shows

Slide Shows may be included as well with your DVD for an additional cost. An example of a Slide Show that you may want to include would be pictures from each of you growing up, rehearsal pictures, pictures from the photographer, and/or pictures from your honeymoon. Each slide show can have music, can have up to 99 pictures in each slide show, and can be a part of the video if there's enough room. A DVD typically can only be 2 hours.

The last step: Authoring Your Wedding Video to disc. We'll create a customized menu that has:

- ***Background Music
- ***A Picture from the wedding in the background
- Button to play entire movie
- Buttons for Scene Selection
- A Label with a ***picture from the wedding printed on it

[Neofilm Productions](#)

Jeff@NeofilmProductions.com 704-482-9400

*Wedding videos in Shelby North Carolina are typically this price. However, wedding videos in Charlotte North Carolina, wedding videos in Hickory North Carolina and elsewhere may have travel expenses and travel and other expenses are not included in this package.

Neofilm Productions reserves the right to change what we offer and prices at anytime. **Payment for additional hours is if you need a guarantee that a videographer will be there additional time. However, we often stay longer than 6 hours without an extra charge, but this would be left to the discretion of Neofilm Productions and additional time is not guaranteed unless arranged otherwise.

***asterisks are items that you can choose or you may leave it up to us to choose (in regard to whom picks the pictures for labels, menus, etc...)
